Copper Moon Studio Gallery & Gifts

“Since the business began back in 2006, it has been a mission for Copper Moon Studio to spread the appreciation for the arts, and thankfully the community has been happy to join in. To continue this mission and celebrate the child artists of Northwest Ohio, Copper Moon Studio is hosting Kreative Kids Classes at their new location on Airport Highway in Holland. The Kreative Kids Classes start teaching little ones the very basics of how fusing glass works and encouraging their budding creative spirits. It’s a simple 20-30 minute workshop where the children choose from pre-cut designs in a variety of shapes and a rainbow of colors. No skills or experience is required and although the class is designed for young children (ages 4 and up), most of the time adults cannot help but join in on the fun! The children get a chance to learn a new medium in the art world, and perhaps find a creative outlet to explore. This is the perfect project for the neighborhood kids to do on a rainy day, also great for troop activities, as well as a new spin on the standard birthday party. Refreshments and snacks can be brought in as well to add to the festivities. This is a simple and affordable way to explore the world of art while creating a memorable gift or a one-of-a-kind keepsake. Class times are available almost every day, just call ahead to schedule an appointment. Mornings, evenings, weekdays, weekends – plenty of options are available, however a 5 child minimum is required. And the children can choose from several options, such as Suncatchers for only \$10 or a Night-Light for only \$18. Copper Moon Studio also offers more extensive classes for older kids (starting at age 9) as well as adults – additional information can be found at www.coppermoonstudio.com or call the studio today at 419-867-0683 and let the crew at Copper Moon Studio go above and beyond to design a class that suits your needs. “
