Capture spectacular views in this bright vacation home.

A surrounding sundeck and expansive window wall capitalize on vacation-home views in this design, making it ideal for a lakefront lot or as a mountain hideaway.

Magnificent full-height windows flood the huge living/dining room with abundant natural light and bring attention to the high vaulted ceilings. A woodstove here offers a cozy spot for everyone to gather on chilly nights.

Double doors open to the enormous deck, perfect for grilling, sunbathing, or just enjoying the fresh air. Nearby, the efficient U-shaped kitchen has ample counter and cupboard space, with a cheery window above the sink that lets you take in the scenery even while washing dishes. Behind it is a laundry room and rear entrance.

The generous master bedroom sits on this floor and has a large wall closet and access to the full bath. Two bedrooms upstairs sleep family members or guests and share use of a half bath.
