

BUILD A DREAM

Cottage-Style Farmhouse

A graceful country exterior brings tremendous curb appeal to this plan, thanks to the columned porch, cheerful dormers, and unobtrusive side-entry garage.

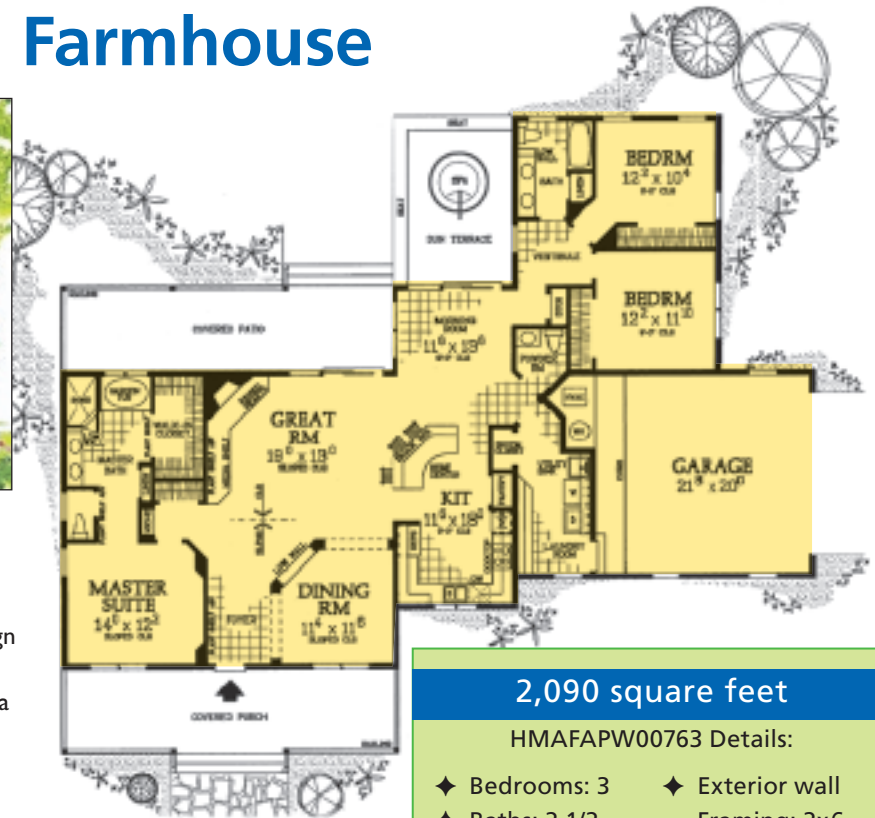

The open, free-flowing layout inside makes spending time with family and visitors simple, while also granting excellent privacy to the master suite. The three-bedroom design features 2,090 square feet of living space on one level.

Head inside past the dining room, open on two sides, into the main living areas. Here, a raised hearth and media shelf make the great room a cozy and convenient area for watching movies or relaxing. The kitchen's snack bar offers seating for casual meals, with the sunny nook nearby also an option.

At bedtime, enjoy the seclusion of the master suite, where a garden tub, separate shower, and walk-in closet create a welcome haven.

Two additional bedrooms rest in back on the opposite side of the home, sharing a full bath with time-saving dual vanities.

A laundry room with counter space leads to the two-car garage. All over the home, you'll find thoughtful storage solutions, including a niche, plant shelf, and plenty of closets.

A split-bedroom design allows for maximum privacy, while outdoor living spaces abound.

2,090 square feet
