

# Perfect for the Active Family

A portico makes a striking architectural statement, with dormers and a wide front porch adding even more curb appeal.

Graceful and even a bit grand, you won't forget this home, Plan HMAFAPW00717 from Homeplans.com.

The family-friendly design features 1,937 square feet of finished living space, with an additional 1,355 square feet of unfinished space in the basement. A wrap-around porch in the front of the home and a deck in the back offer plenty of space for outdoor living as well.

Double columns frame the entry, ushering visitors into the two-story foyer. To the left waits the formal dining room, within easy serving distance of the kitchen. Ahead, the Great Room's two-story ceiling adds volume to the space. The raised-hearth fireplace is flanked by doors to the wrap-around rear deck.

There's room for casual seating at the kitchen's snack bar and in the sunny breakfast nook, which also leads out to the deck.

On the right side of the home, the compartmented master bath includes double lavatories, a walk-in closet, a whirlpool tub, a stall shower with a seat, linen storage, and access to the rear deck.

The upper level features two bedrooms and a balcony that overlooks the Great Room below.

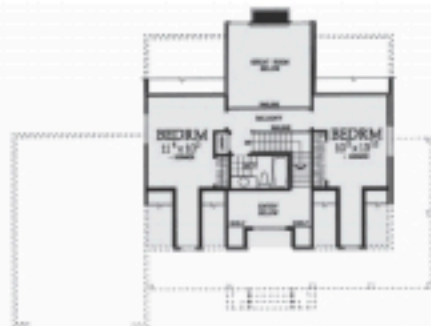

Don't miss the thoughtful details like extra storage in the garage, built-in book storage in the Great Room, and a linen closet by the upstairs bathroom.
