A check on Ohio registration #FIN2682 indicated the registration expired on January 26, 2012. The expired plates were on a 2005 Nissan X-terra that was traveling west on W South Boundary from Pine St. A traffic stop was initiated and Erik Hill was identified as the driver. Hill explained that he went to renew the plates today thinking they expired in November 2012 because November is the month of his birthday. Hill stated BMV personnel stated they made a mistake when they entered his plates into their system as they should expire on his birthday of this year and not in January 2012. Hill did not have any paperwork on him that indicated this was a mistake by BMV. He stated he did not renew the plates today when he had the opportunity because BMV personnel would not accept a credit card. Hill was issued a citation for Expired Registration 4503.11 ORC (M4) and given a court date of December 11, 2012 at 5:00 PM. He was directed to bring his BMV paperwork showing that BMV erred when issuing him his plates.

Call Short Narrative

I observed a grey Toyota Camry with a rear obstructed license plate traveling Westbound on Eckel Junction Rd at SR 25. I stopped the vehicle and spoke with the driver, John Kohlbeck. Mr. Kohlbeck stated that the license plate was faded. After taking a closer look at the license plate, there was a piece of brown film on the inside of the license plate cover obstructing the numbers and letters. The expiration sticker was on the outside of the plastic cover. I asked Mr. Kohlbeck to step out of the vehicle to show him the license plate cover. Mr. Kohlbeck didn't have a legal reason why the license plate was obstructed. Also, there was no front license plate on the vehicle. Officer Stanton took a photo of the rear license plate. Mr. Kohlbeck was cited for display of plates and was given a court date for 12/ 11/12 at 1700 hrs.
