Call Short Narrative

While traveling northbound on SR-25 crossing over IR-475, I observed a vehicle on northbound IR-475 in the left hand lane. The vehicle was passing another vehicle in the right hand lane at what appeared to be a very fast pace. I got on to northbound IR-475 and attempted to catch up with the vehicle. I caught the vehicle at mile post 2.5 and observed a white Mitsubishi Lancer followed by a grey truck, both in the left hand lane. I activated radar unit E27139 in moving mode, and I observed that my vehicle's speed was 80 MPH, and it corresponded with the speedometer. I activated my over head lights and the white Mitsubishi (NC-ZVH3678) stopped and the grey truck continued on. I identified the driver as Lalona Young. Young advised that she was just driving home to Tecumseh, MI from Columbus, OH. I issued Young a citation for Speed, 4511.21(B)(13) MM, and gave her a court date of 12/21/12 at 0845 hours. The calibration of radar unit E27139 was checked and found to be accurate at 0520 hours on 12/19/12.

I was stationary at 235 W. Indiana Ave. I observed a white Saturn Aura OH-FRF6378 traveling Westbound on W. Indiana between Walnut St and Pine St. The vehicle appeared to be traveling faster than the posted speed limit of 25 mph. I activated laser unit #UX014977 and it displayed a reading of 48 mph at 732.8 ft from cruiser. There were no vehicles in front or behind the vehicle. I stopped the vehicle and I spoke to the driver, Amanda Smith. Miss Smith advised that she thought the speed limit was 45 mph, but she didn't know how fast she was going. She told me that she had to be home at 2100 hrs, but she had to take her brothers to different events since her mother was unable to do so. Miss Smith was cited for speed and was given a court date for 01/16/2013 at 1645 hrs. A calibration check was performed on the laser unit and it was functioning properly.
