This lovely plan is designed with many options, including a bonus space above the garage that can have a variety of uses with the potential of an additional private bath. Gorgeous window walls bring plenty of natural light into the sunroom, breakfast nook, and master bedroom. The master suite also features a vaulted ceiling, a well-equipped master bath with twin walk-in closets, and access to the adjoining study (which would make a perfect nursery). The two secondary bedrooms have walk-in closets and share a bath, and one even features a desk. Don't miss the extra storage space in the garage, including room for a golf cart and work bench.
