SEVEN-CARD STUD

Each poker table shall be restricted to a maximum of eight players. Each player who plays in a round of play may be required to place an ante.

Starting with the first player to the left of the dealer and continuing in a clockwise rotation around the poker table, the dealer will deal two rounds of cards face down and one round of cards face up to each player.

Once each player has received three cards, the first betting round shall begin by comparing the up-card of each player. The player with the lowest card will start the betting round. In the event that two or more up-cards are of the same rank, the up-cards shall then be ranked by suit, with the highest to lowest ranked suits in order as follows: Spades, Hearts, Diamonds and Clubs.

Following the bet placed by the player with the low card, each following player, proceeding in a clockwise rotation, may fold, call or raise the bet. After the last player has responded to the most recent bet, the betting round is complete.

Upon completion of the first betting round, the dealer will bring the chips into the center of the table and burn the top card of the deck and place it under the pot. Starting with the first remaining player to the dealers left, deal a fourth card face up to each player remaining in the game. The player with the highest-ranking poker hand showing will initiate the action by betting or checking. If the highest-ranking poker hand showing is held by two or more players, the player closest to the left of the dealer shall be required to bet or check.

Following the initial bet or check, each subsequent player, proceeding in a clockwise rotation, may fold, call, raise or, if the preceding players have not made a bet, check. Each player may check until a bet has been made. Once a bet has been made, the next player in a clockwise rotation may fold, call or raise. After the last player has responded to the most recent bet, the betting round is complete.

The dealer shall then deal two additional rounds of cards face up to each player remaining in the game, with each round followed by a betting round. Prior to each round of cards being dealt, the dealer shall burn the top card of the deck and place it under the pot.

If there are enough cards remaining in the deck/stub, give each remaining player a seventh and final card.

If there are not enough cards remaining in the deck to give each remaining player a seventh card, the dealer may shuffle the burn cards, burn a card, then deal a seventh card to each player. If there are not enough cards remaining including the burn cards to issue a seventh card, the top card of the deck shall be burned and a common card shall be dealt face up in the center of the table. If there is one or no card remaining in the deck when a common card is to be dealt, the dealer shall shuffle the burn cards, burn a card and then deal the common card.

If more than one player remains after the final betting round, a showdown will be used to determine the winner of the pot. Each player remaining in the game shall form a five-card poker hand from the seven cards that they were dealt. The winner of the pot will be the player with the highest-ranking five-card high hand.

TEXAS HOLD 'EM

A flat disk called the "Button" shall be used to indicate an imaginary dealer.

At the commencement of play, the dealer will deal each player one card face up to determine the placement of the button. Whoever receives the highest-ranking card will start with the button.

The button will move around the table in a clockwise manner after each round of play.

The player to the immediate left of the button is required to place a Small Blind bet. The player to the immediate left of the Small Blind bet is required to place a Big Blind bet. The amount and number of blind bets will be posted on a Poker Table sign.

Starting with the player to the immediate left of the button and continuing in a clockwise rotation around the Poker table, the dealer shall deal two rounds of cards face down to each player, the player with the button being the last player to receive a card each time.

Each player in turn, in a clockwise rotation starting with the player to the left of the Big Blind bet, has the option to Call, Raise or Fold. If no player has raised the bet, then the option to raise is given to both Blind bet/s. After the last player has responded to the most recent bet, the betting round shall be considered complete.

The dealer will Tap the table in front of the rack, burn the top card of the deck and place it under the pot, and proceed to deal three community cards (the Flop) face up in the center of the table.

The next betting round will begin with the option to bet or check belonging to the first player to the left of the button who has not folded. Each player may, in clockwise rotation, fold, call, raise the bet or, if preceding players have not made a bet, make an opening bet or check. The betting round shall be considered complete when each player has either folded or called in response to the most recent bet.

Upon completion of the betting round the dealer will again burn the top card of the deck and then deal a fourth community card (the Turn) face up to the right of the Flop.

The next betting round will begin with the option to bet or check belonging to the first player to the left of the button who has not folded.

Upon completion of the betting round the dealer will again burn the top card of the deck and then deal a fifth community card (the River) face up to the right of the Turn card.

The final betting round will begin with the option to check or bet belonging to the first player to the left of the button who has not folded.

If more than one player remains in the round of play after the final betting round has been completed, a showdown shall be used to determine the winner of the pot.

Each player remaining in the game will turn his cards over and the dealer will read the cards to determine the highest-ranking five-card high poker hand using, in any combination, their own two cards and the five community cards.

The winner of the pot will be the player with the highest-ranking five-card high poker hand.

In the event of a tie the excess chip is awarded to the player to the left of the dealer button that is in the pot.
